

HIGHLIGHTS

Overview

Weekly Message

Greetings again to our faithful readership. During the week you will have been informed by the site team, that Block 5 will soon be designated a cleared block for recovered workers. Residents in block 5 are either serology-test positive or have recovered from COVID-19, and they can now be allowed to return to work, upon meeting the measures/conditions imposed by the authorities on employers, workers, and dormitory operators. Please see our "Help us Help You" section to know how you can help us get your workers back to work as soon as possible. Block 5 will also house COVID- negative workers who have been cleared externally and will return to the dormitory in the coming days. They will be placed under Stay-Home-Notice ("SHN") in their rooms for seven days, and will be able to return to work thereafter. With your cooperation we are targeting to have block 5 residents progressively released for work next week / early August.

The remaining block 5C now houses workers who have tested Positive for COVID-19 through swab tests or Negative for serology tests. This block will be under quarantine and residents are strictly required to stay in their rooms and cannot mingle with workers from other rooms. There will be strict security checks and records kept to ensure residents adhere to the movement restrictions and non-mingling policy. During this period, residents in Block 5C will continue undergo serology tests and workers tested Serology positive during this period will be moved to Block 5 and able to resume work after 7 days. It is critical that you encourage your workers to comply with requirements and movement restriction so they can return to work as soon as possible.

(6,076 serology tests taken)

Help us Help You!

Employers can help by:

1. Ensuring your workers' addresses are updated in the Online Foreign Worker Address Service (OFWAS), including details such as floor and unit number. The addresses should tally with our dormitory management system, which is updated quickly when workers are moved to meet segregation or cohorting requirements. You can find the current correct address of your workers simply, by logging in to the Westlite Employer Portal ("Westlite Portal").
2. Securing approval from the relevant authority (such as MTI, BCA or EDB) for your company and workers to resume work.
3. Updating in the Westlite Portal the work approval status of your workers as well as arrangements for your dedicated transport and allocated pick-up and drop-off sites and times.
4. Helping to reinforce to your workers that they must strictly comply with quarantine and movement restrictions. No leaving the room for any reason, as this will jeopardise their returning to work.

Catering Situation

Food catering provided by MOM for block 5 will cease 7 days after the block is cleared for work. Employers will need to make arrangements for meals which we can assist with. Block 5c residents will have food and essentials delivered daily, and all activities must be done online.
