

WESTLITE TOH GUAN

EMPLOYERS NEWSLETTER ISSUE #12 | 20th July to 26th July 2020

week has been as hectic a week than any since lock-down was imposed. MOM and other authorities have revised target dates and we are very pleased to share those with you during the week. At this stage, you will be aware that Block 22 was designated a clear block on 20th July and residents in this block have begun the process of resuming work gradually..

Workers in blocks 18, 20, 24 and 26 are recovered and sero-positive only. We are working closely with relevant authorities with the shared target that these 4 blocks will be degazetted by the end of July. We will also be working closely with employers to ensure workers are ready to resume work, closely following de-gazetting.

For residents remaining in block 28, they have either tested negative for COVID-19 through swab tests or serology tests. This block is now under quarantine for 14 days from 17th July. Tamper-proof stickers will be placed on each apartment unit's door, with strict security checks and records kept, to ensure that residents adhere to the non-mingling rules between units and floors. Residents must stay inside their rooms for the duration to avoid any potential transition. Food and essentials will be delivered daily, and all activities, including remittance services, must be done online. With your help in the following areas we can ensure that Westlite Mandai's residents have fully resumed work but we cannot do it without the help of employers. Please to take a look at the new "Help us Help You" section on what employers can do to help workers back to work sooner.

Employers can help by:

- Ensuring your workers' addresses are updated in the Online Foreign Worker Address Service (OFWAS), including details such as floor and unit number. The addresses should tally with our dormitory management system, which is updated quickly when workers are moved to meet segregation or cohorting requirements. You can find the current correct address of your workers simply, by logging in to the Westlite Employer Portal ("Westlite Portal").
- 2. Securing approval from the relevant authority (such as MTI, BCA or EDB) for your company and workers to resume work.
- 3. Updating in the Westlite Portal the work approval status of your workers as well as arrangements for your dedicated transport and allocated pick-up and drop-off sites and times.
- 4. Helping to reinforce to your worker in Block 38, that they must strictly comply with quarantine and movement restrictions. No leaving the room for any reason, as this will jeopardise their returning to work.

Catering Situation

Food catering currently provided by MOM for ALL workers housed in Block 22 is due to cease on 27th July. Employers will need to make alternative arrangements for meals beyond that which Westlite can assist with if required. Residents can still purchase from mini mart also.
